

Curriculum Vitae

Nicole C. Nelson

Formal college and university education

- | | |
|------|--|
| 2011 | Ph. D. Science and Technology Studies
Cornell University, Ithaca, NY |
| 2007 | M. A. Science and Technology Studies
Cornell University, Ithaca, NY |
| 2004 | B. Sc. Genetics and Social and Political Thought, with distinction
University of Western Ontario, London, ON |

Title of dissertation and name(s) of supervisors

- | | |
|------|---|
| 2011 | “Capturing Complexity: Experimental Systems and Epistemic Scaffolds in Animal Behavior Genetics”
Ph. D. Science and Technology Studies
Cornell University, Ithaca, NY
Supervisors: Stephen Hilgartner (chair), Michael E. Lynch, Christine A. Leuenberger-Pinch, Suman Seth |
|------|---|

Positions held

- | | |
|-----------|---|
| 2018–2019 | Katherine Hampson Bessell Fellow
Harvard University, Radcliffe Institute for Advanced Study, Cambridge, MA |
| 2014– | Assistant Professor
University of Wisconsin–Madison, Department of History (2017–)/Department of Medical History and Bioethics (2014–), Department of the History of Science (2014–2017), Madison, WI |
| 2011–2013 | Postdoctoral Research Fellow
McGill University, Social Studies of Medicine, Montreal, QC |

Honors, grants, and awards

- | | |
|------|---|
| 2018 | Dorothy and Hsin-Nung Yao Award for Excellence in Undergraduate Teaching
Department of History, University of Madison–Wisconsin |
|------|---|

- 2018 **Honored Instructor Award, Spring 2018**
University of Madison–Wisconsin
- 2017 **“Autonomy and the Algorithm: Where Machine Learning Meets Human Decisions in the Cancer Clinic,”** UW–Madison Fall Competition Research Grant
Nicole C. Nelson (PI), Pilar Ossorio (PI; Value: US\$28 131)
- 2017 **Honored Instructor Award, Spring 2017**
University of Madison–Wisconsin
- 2016 **“Model Behavior: Animal Experiments and the Genetics of Psychiatric Disorders,”**
Research Service Grant, UW–Madison (Value: US\$20 000)
- 2016 **Honored Instructor Award, Spring 2016**
University of Wisconsin–Madison
- 2015 **“Traveling Facts: Circulating Genetic Knowledge through Animal Models,”** UW–
Madison Fall Competition research grant (Value: US\$20 798)
- 2015 **First Book Award**
Center for the Humanities, University of Wisconsin–Madison
- 2015 **Honored Instructor Award, Spring 2015**
University of Wisconsin–Madison
- 2014–2018 **“Genomic Medicine Enters the Clinic: Translational Research, Actionable Mutations, Clinical Utility, and the Reframing of Oncology,”** CIHR operating grant
Alberto Cambrosio and Peter Keating (PI), Nicole C. Nelson (Co-PI; Value Can\$325 000)
- 2014 **Honored Instructor Award, Spring 2014**
University of Wisconsin–Madison
- 2013 **Fellowship Award**
Canadian Institute for Health Research (Value: Can\$ 90 000 over two years; declined)
- 2013 **Bisby Fellowship Prize**
Canadian Institute for Health Research (Value: Can\$ 10 000 over two years; declined)
- 2013 **Postdoctoral Fellowship (B3)**
Fonds de recherche Société et culture Québec (Value: Can\$ 30 000; declined)

Positions held that require scholarly competence

- 2018– **Journal of the History of Biology**
Member of the editorial board
- 2018 **“Toxic Politics”**
Collaborating journal editor, with guest editors Nerea Calvillo, Max Liboiron and Manuel Tironi, for *Social Studies of Science*, Special Issue

- 2017 **National Library of Medicine, Special Emphasis Panel (G13: Scholarly Works in Biomedicine and Health)**
Member.
- 2015– **New Genetics and Society**
Member of the Editorial Board
- 2014– **Social Studies of Science**
Collaborating editor
- 2013–2017 **InVisible Culture**
Member of Advisory Board
- 2012–2014 **Social Studies of Science**
Book reviews editor
- 2008 “**The Anticipatory State: Making Policy-Relevant Knowledge about the Future**”
Guest Editor, with Stephen Hilgartner and Anna Geltzer, for *Science and Public Policy*
Special Issue

Bibliography (P: peer reviewed)

Books and monographs

- 2018 (P) Nelson, Nicole C. *Model Behavior: Animal Experiments, Complexity, and the Genetics of Psychiatric Disorders*. Chicago: University of Chicago Press.

Articles and contributions to edited volumes and handbooks

- 2018 (P) Nelson, Nicole C. and Kaitlin Stack Whitney. “Becoming a research rodent.” In *Living with Animals: Bonds across Species*, edited by Natalie Porter and Ilana Gershon, 199–208. Ithaca, NY: Cornell University Press.
- 2018 Nelson, Nicole C. and Aaron Panofksy. “Behavior genetics: boundary crossings and epistemic cultures.” In *Handbook of Genomics, Health, and Society*, edited by Sahra Gibbon, Barbara Prainsack, Stephen Hilgartner and Janelle Lamoreaux, 219–299. New York: Routledge.
- 2018 Cambrosio, Alberto, Etienne Vignola-Gagné, Nicole C. Nelson, Peter Keating, and Pascale Bourret. “Genomic platforms and clinical research.” In *Handbook of Genomics, Health, and Society*, edited by Sahra Gibbon, Barbara Prainsack, Stephen Hilgartner and Janelle Lamoreaux, 142–150. New York: Routledge.
- 2017 (P) Cambrosio, Alberto, Pascale Bourret, Peter Keating, and Nicole C. Nelson. “Opening the regulatory black box of clinical cancer research: transnational expertise networks and ‘disruptive’ technologies.” *Minerva* 55 (2):161–185.

- 2016 (P) Keating, Peter, Alberto Cambrosio, and **Nicole C. Nelson**. “Triple negative breast cancer”: Translational research and the (re)assembling of diseases in post-genomic medicine.” *Studies in History and Philosophy of Science Part C* 59:20–34.
- 2016 (P) Davies, Gail F. et al. “Developing a collaborative agenda for humanities and social scientific research on laboratory animal science and welfare.” *PLoS ONE* 11(7):e0158791.
- 2016 (P) **Nelson, Nicole C.** “Model Homes for Model Organisms: Intersections of Animal Welfare and Behavioral Neuroscience around the Environment of the Laboratory Mouse.” *BioSocieties* 11(1):46–66.
- 2015 (P) **Nelson, Nicole C.** “A Knockout Experiment: Disciplinary Divides and Experimental Skill in Animal Behavior Genetics.” *Medical History* 59(3):465–485.
- 2014 (P) Cambrosio, Alberto, Peter Keating, & **Nicole C. Nelson**. “Régimes thérapeutiques et dispositifs de preuve en oncologie: l’organisation des essais cliniques des groupes coopérateurs aux consortiums de recherche.” *Sciences Sociales & Santé* 32(3):13–42.
- 2014 (P) Ankeny, Rachel A., Sabina Leonelli, **Nicole C. Nelson**, & Edward Ramsden. “Making Organisms Model Humans: Situated Models in Alcohol Research.” *Science in Context* 27(3):485–509.
- 2014 (P) **Nelson, Nicole C.**, Peter Keating, Alberto Cambrosio, Adriana Aguilar-Mahecha, & Mark Basik. “Testing Devices or Experimental Systems? Cancer Clinical Trials Take the Genomic Turn.” *Social Science and Medicine* 111:74–83
- 2013 (P) **Nelson, Nicole C.**, Alberto Cambrosio, & Peter Keating. “On Being ‘Actionable’: Clinical Sequencing and the Emerging Contours of a Regime of Genomic Medicine in Oncology.” *New Genetics and Society* 32(4):405–428
- 2013 (P) Keating, Peter, Alberto Cambrosio, **Nicole C. Nelson**, Andrei Mogoutov, & Jean-Philippe Cointet. “Therapy’s Shadow: A Short History of the Study of Resistance to Cancer Chemotherapy.” *Frontiers in Pharmacology* 4:58.
- 2013 (P) **Nelson, Nicole C.** “Modeling Mouse, Human, and Discipline: Epistemic Scaffolds in Animal Behavior Genetics.” *Social Studies of Science* 43(1):3–29.
- 2012 (P) **Nelson, Nicole**. “Shooting Genes, Distributing Credit: Narrating the Development of the Biolistic Gene Gun.” *Science as Culture* 21(2):205–232.
- 2008 **Nelson, Nicole**, Anna Geltzer and Stephen Hilgartner. “The Anticipatory State: Making Policy-Relevant Knowledge about the Future – A Special Issue.” *Science and Public Policy* 35(9): 545–624.
- 2002 **Nelson, Nicole**. “Countercultural Revolution: The Nixon Era of Conservatism and the Rise of the Feminist Movement.” *The Mirror* 22: 77–92. London, ON: University of Western Ontario.

Book reviews

- 2017 Nelson, Nicole C. "Book Review: Andrew Hogan, *Life Histories of Genetic Disease: Patterns and Prevention in Postwar Medical Genetics*." *Journal of the History of Medicine and Allied Sciences*, jrx050.
- 2016 Nelson, Nicole C. "Book Review: *Misbehaving Science: Controversy and the Development of Behavior Genetics*." *Medical Anthropology Quarterly* 30(3).
- 2015 Nelson, Nicole C. "Book Review: *Gene Jockeys*." *Journal of the History of Medicine and Allied Sciences* 70(3):481–483.
- 2008 Nelson, Nicole. "Book Review: *Living with the Genome*." *Public Understanding of Science* 17: 505–507.
- 2008 Nelson, Nicole and Geoff Nelson. "Book Review: *The Spirit Catches You and You Fall Down*." *Journal of Health Psychology* 13: 839–840.

Lectures and scholarly papers; conference organization; participation in panels, and similar matters

Invited presentations

- 2019 "Jumping the species barrier: reproducibility concerns as a trans-disciplinary phenomenon." Replication of Crises: Psychology in Times of Epistemic Upheaval. University of Lübeck, Germany, September 19–20.
- "Good science and good welfare, hand in hand?: Alignments and misalignments between experimental rigor and animal care." Animal Research Unbound conference, University of Exeter, UK, July 15.
- "When standardization means variation: the movement towards heterogenized mouse environments." Standards and Their Containers conference, University of Oxford, UK, April 12.
- "Coping with complexity: how ethnography can help practitioners recognize (and embrace?) the limits of their knowledge." Medical Humanities conference, University of Notre Dame, Notre Dame, IN, April 5.
- "An evening of interspecies archives." New Radical Archives Workshop, New York University, New York, February 22.
- "The truth wears off?: the reproducibility crisis in historical perspective." Radcliffe Institute for Advanced Study, Cambridge, MA, February 6.
- 2018 "Give me a laboratory: Remaking epistemic hierarchies in the era of data science." Data Then and Now seminar series, eScience Institute, University of Washington, Seattle, November 1.
- "When results disagree: cultures of complexity and the reproducibility crisis." Department of the History of Science, Harvard University, Cambridge, MA, September 27.

- 2016 “Representing the human drinker: Modeling binge drinking with mice.” Invited lecture for the STS colloquium series, Massachusetts Institute of Technology, Cambridge, October 17.
- “Ethical aspects of personalized medicine: What’s in the spotlight, and what’s not” Invited lecture for the European Clinical Research Infrastructure Network, Prague, Czech Republic, May 20.
- “Knowledge byproducts in the mouse laboratory: learning about environments while doing genetics.” Klopsteg Lecture, Northwestern University, Evanston, IL, February 22.
- 2015 “Handling research animal ethics: Interactions between science and welfare” Invited talk for Research Ethics Grand Rounds, University of North Carolina at Chapel Hill, April 2.
- 2014 “Knowledge byproducts in the mouse laboratory: Learning about environments while doing genetics.” Invited talk for the Egenis seminar series, University of Exeter, Exeter, UK, October 27.
- “The new politics of knowledge production”. Invited talk for the CCRLA Social Justice Speaker series “What is Knowledge?”, Wilfrid Laurier University, Waterloo, ON, January 8.
- 2013 “Containing complexities: experimental practice in an animal behavior genetics laboratory.” Invited talk for the seminar series “Entanglements of Instruments and Media in Exploring Organic Worlds,” York University, Toronto, ON, October 15.
- 2012 “What’s wrong with my mouse?: learning to experiment in the animal behavior genetics laboratory.” Invited paper at the workshop “The History of Skill in Science and Medicine,” McGill University, Montreal, QC, June 15.
- 2008 “A furry, one ounce human?” (Invited lecture for the Society for the Humanities Faculty Group on “The Human,” Cornell University, Ithaca, NY, November 19.
- 2007 “Mice study shows genes are not always destiny: methodological debates and the moral economy of behavior genetics.” Invited paper for the Mellon Foundation workshop on the Interface of Science and the Humanities, Syracuse, NY, October 26.

Selected conference and workshop presentations

- 2019 “Mapping the discursive space of the reproducibility crisis.” Society for the Social Studies of Science annual meeting, New Orleans, LA, September 4-7.
- 2018 “Remaking mice for reproducibility.” Presented at the History of Science Society Annual Meeting, Seattle, WA, November 2.
- “Remaking the world for reproducibility.” European Association for the Study of Science and Technology Conference, Lancaster, UK, July 25

- “A mechanism of public misunderstanding of animal behavior genetics research.” International Behavioral and Neural Genetics Society Annual Meeting, Rochester, MN, May 21.
- 2017 “The reproducibility crisis and its critics: Scientists’ evaluations of the stability of their findings.” Presented at the Society for the Social Studies of Science Annual Meeting, Boston, MA, August 31.
- 2016 “Judging genomics: The role of STS critique in an era of complexity” Presented at the Society for the Social Studies of Science, Barcelona, Spain, September 2.
- “Representing the human drinker.” Presented at the Working across Species workshop, Kings College, London, UK, January 7.
- 2015 “Complexity crisis! The roles of complexity talk in the laboratory.” Presented at the Society for the Social Studies of Science Annual Meeting, Denver, CO, November 13.
- “Accumulating and circulating knowledge about genes and environments in animal behavior genetics.” Presented at the International Society for the History, Philosophy and Social Studies of Biology 2015, Montreal, QC, July 7
- 2014 “Techniques of care, techniques of science: Interactions between scientists and welfare technicians in animal behavior genetics.” Presented at the History of Science Society Annual Meeting, Chicago, IL, November 7.
- 2013 “Molecular oncology’s hybrid entities and the redefinition of risk: The case of triple negative breast cancer.” Peter Keating & Alberto Cambrosio; presented at the History of Science Society Annual Meeting, Boston, MA, November 22.
- “Testing devices or experimental systems? Cancer clinical trials take the genomic turn.” Nicole Nelson, Peter Keating, & Alberto Cambrosio; poster/presentation at the Canadian Cancer Research Conference, Toronto, ON, November 4.
- “From Risk to “Actionable”: Clinical Sequencing and the Emerging Contours of Genomic Medicine in Oncology.” Nicole Nelson, Peter Keating, & Alberto Cambrosio; presented at the Society for Social Studies of Science Annual Meeting, San Diego, CA, October 10.
- “Handling the situated mouse: interactions between science and welfare in animal behavior genetics.” Presented at the International Society for the History, Philosophy and Social Studies of Biology 2013 Meeting, Montpellier, France, July 9.
- 2012 “Modeling humans, standardizing the environment: making organisms model humans in research on alcohol addiction.” Sabina Leonelli, Rachel Ankeny, Nicole Nelson, & Edmund Ramsden; presented at the History of Science Society Annual Meeting, San Diego, CA, November 16.
- “From clinical to bioclinical work in cancer research.” Nicole Nelson & Peter Keating; presented at the Society for the Social Studies of Science Annual Meeting, Copenhagen, Denmark, October 18.

- 2012 “Framing ‘binge drinking’ in the animal laboratory.” Presented at the conference “The Mutual Challenges of Neuroscience and Public Health,” King’s College, London, UK, April 26
- 2011 “Trials and tribulations: building the future of translational research in oncology.” Nicole Nelson, Peter Keating, & Alberto Cambrosio; presented at the Society for the Social Studies of Science Annual Meeting, Cleveland, OH, November 4.
- 2010 “The mouse multiple: managing the care of mice in a behavior genetics laboratory.” Presented at the Society for Social Studies of Science Annual Meeting, Tokyo, Japan, August 27.
- 2009 “The concept of ‘complexity’ in animal behavior genetics.” Presented at the Society for Social Studies of Science Annual Meeting, Washington, DC, October 31.
- “Generating ‘anxiety like phenotypes’ in the elevated plus maze: a measure of mouse anxiety or a model of human anxiety?” Presented at the International Congress of History of Science and Technology, Budapest, Hungary, August 1.
- “Generating ‘anxiety-like phenotypes’ in the elevated plus maze: a measure of mouse anxiety or a model of human anxiety?” Presented at the Annual Conference of the Canadian Society for the History and Philosophy of Science, Ottawa, ON, May 28.
- 2008 “How fatty is your mouse chow?: communicating protocol information in mouse research.” Presented at the Society for Social Studies of Science Annual Meeting, Rotterdam, Netherlands, August 21.
- “Model homes for model organisms: environmental enrichment for laboratory rodents.” Presented at the Lab for Social Anthropology and the Life Sciences, Humboldt University, Berlin, Germany, June 17.
- 2007 “A model home for model mice: environmental enrichment and the meanings of the mouse body.” Presented at the Society for Social Studies of Science Annual Meeting, Montreal, QC, October 12.
- “Politicizing methodology: standardization debates in behavior genetics.” Presented at the International Society for the History, Philosophy and Social Studies of Biology 2007 Meeting, Exeter, UK, July 27.
- 2006 “Three blind mice trials: replication in behavioral genetics.” Presented at the Society for Social Studies of Science Annual Meeting, Vancouver, BC, November 2.
- 2005 “Configuring the worm: scientists as users and designers in *C elegans* and *Planaria* research.” Presented at the International Society for the History, Philosophy and Social Studies of Biology, Guelph University, Guelph, ON, July 14.

Campus talks

- 2017 “Learning about environments while studying genetics: Modeling binge drinking.” Invited lecture for the Department of History Colloquium Series, UW–Madison, November 27.
- 2016 “Containing complexities: Producing knowledge about psychiatric disorders in an animal behavior genetics laboratory.” Invited lecture for the Center for the Humanities, UW–Madison, November 18.
- 2015 “The public life of scientific facts: Animal behavior genetics in the news media.” Presentation for the Evolution Seminar Series, UW–Madison, October 1.
- “Can a mouse be anxious? Developing and validating models of complex phenomena”, Chalk talk at the Wisconsin Institutes for Discovery, UW–Madison, September 3.
- 2014 “Accumulating knowledge about genes and environments in animal behavior genetics.” Holtz Center for Science and Technology Studies Brown Bag Series, UW–Madison, September 25.

Other conference and workshop participation

- 2019 **Latin America as Laboratory**
Invited workshop discussant, Harvard University, Cambridge, MA, May 2.
- The May Fourth Movement, Mr. Science, and Modern China**
Invited workshop discussant, Harvard University, Cambridge, MA, April 14.
- 2018 **Historical Research on Model Organisms in Biology**
Invited participant, Cold Spring Harbor Laboratory, April 23.
- 2016 **Harm Reduction and Public Health**
Panel commentator, History of Science Society Annual Meeting, Atlanta, GA, November 4.
- 2015 **Why Objects?**
Roundtable, Participant, History of Science Society Annual Meeting, San Francisco, CA, November 20.
- 2014 **Laboratory Animal Welfare: Developing a Collaborative Agenda for Humanities and Social Scientific Research**
Invited participant, Laboratory Animals in the Social Sciences and Humanities Network, London, UK, October 28
- 2012 **Politics of Care in Technoscience**
Invited discussant, York University, Toronto, ON
- 2008 **European Neuroscience and Society Network “Neuroschool” on Behavior Genetics**
Invited participant, Monterotondo, Italy

Panels organized

- 2019 “Classic STS Papers, Re-incorporated, Re-imagined, Re-enacted.” Society for the Social Studies of Science annual meeting, New Orleans, LA, organized by Sergio Sismondo and Nicole Nelson.
- 2015 “Reductionism and Complexity in the Contemporary Biosciences.” Panel at Society for the Social Studies of Science Annual Meeting, Denver, CO, organized by Nicole Nelson, Daniel Navon, and Nadine Levin.
- 2013 “Working in Biology: How Laboratory and Field Practices Shape Biological Knowledge.” Panel at ISHPSSB 2013 Meeting, Montpellier, France, organized by Caitin Wylie and Nicole Nelson.
- 2009 “Understanding Behavior Genetics.” Panel at Society for the Social Studies of Science Annual Meeting, Washington, DC, organized by Nicole Nelson and Michele Easter.
- 2008 “Standardizing, controlling, and understanding the mouse in biomedical research.” Panel at Society for the Social Studies of Science Annual Meeting, Rotterdam, Netherlands, organized by Nicole Nelson and Monika Cwiartka.

Courses taught at UW–Madison and other contributions to the university’s instructional mission

Courses taught

- Spring 2018/19 *on leave—Radcliffe Fellowship*
- Fall 2018/19 *on leave—Radcliffe Fellowship*
- Spring 2017/18 HistSci 133 **Biology and Society**
History 201 **The 20th Gene**
- Fall 2017/18 HistSci 720 **Proseminar in Historiography and Methods**
STS 201 **Where Science Meets Society**
- Spring 2016/17 HistSci 133 **Biology and Society**
STS 201 **Where Science Meets Society**
- Fall 2016/17 HistSci 720 **Proseminar in Historiography and Methods**
HistSci 180 **The 20th Gene**
- Spring 2015/16 HistSci 133 **Biology and Society**
STS 201 **Where Science Meets Society**
STS 999 **Independent Study in STS**
- Fall 2015/16 HistSci 720 **Proseminar in Historiography and Methods**
STS 999 **Independent Study in STS**

Spring 2014/15	HistSci 133 Biology and Society HistSci 350 The 20th Gene
Fall 2014/15	HistSci 720 Proseminar in Historiography and Methods STS 201 Where Science Meets Society
Spring 2013/14	HistSci 133 Biology and Society HistSci 350 The 20th Gene

Honors and master's theses and Ph. D. dissertations

Ph. D. dissertation committees

Helen Bullard	Special Committee Degree in Interdisciplinary Art and Science, UW–Madison (current)
Julia Dauer	English, UW–Madison (current)
Mel Jeske	Sociology, University of California–San Francisco (current)
Soo Yun Kim	Journalism and Mass Communication, UW–Madison (current)
Alexandra Lakind	Curriculum & Instruction and Nelson Institute, UW–Madison (current)
Madeline Pape	Sociology, UW–Madison (current)
Heather Rosenfeld	Geography, UW–Madison (current)
Travis Weisse	HSMT, UW–Madison (current)
Bo Hee Min	Sociology, UW–Madison (defended 2017)
Michael Halpin	Sociology, UW–Madison (defended 2017)
Vicki Daniel	HSMT, UW–Madison (defended 2017)
Daniel Liu	HSMT, UW–Madison (defended 2016)

Prelim fields supervised

Emily Hutcheson	Gender and Science (completed 2018)
Soo Yun Kim	STS and Communication (completed 2017)
Heather Rosenfeld	STS and Animal Studies (completed 2016)
Travis Weisse	Modern American Biology (completed 2016)

Other contributions to the university's instructional mission

- 2018 "Making mice drink like college students: understanding animal behavior genetics research." Invited talk for the Honors Student Organization, UW–Madison, April 4.
- 2018 "How to understand a binge drinking mouse: science in print versus science in practice." Coffee talk for Phi Alpha Theta History Honor Society, UW–Madison, March 9.
- 2015 "Eugenics in America." Invited talk for the Molecular Biology Club, UW–Madison, April 23.

Service

Institutional service

- 2017–2018 **Health and the Humanities Program, UW–Madison**
Founding Director
- 2017–2018 **Faculty Search Committee, Department of Medical History and Bioethics, UW–Madison**
Member
- 2017–2018- **Joint Committee on Teaching Assistants, Department of History, UW–Madison**
Member
- 2017–2018 **Undergraduate Council, Department of History, UW–Madison**
Member
- 2017 **Women in Science and Engineering (WISE)**
Seminar series participant, UW–Madison
- 2016–2018 **History of Science, Technology, and Medicine Graduate Degree Program Admission Committee, UW–Madison**
Member
- 2016–2017 **Faculty Search Committee, Department of the History of Science, UW–Madison**
Member
- 2015–2017 **Undergraduate Committee, Department of the History of Science, UW–Madison**
Member
- 2014–2017 **Ad Hoc Committee for the Health and Humanities Certificate, UW–Madison**
Member
- 2014–2016 "Disclosing and Enclosing Knowledge: The Paradoxes of Information Flow in Knowledge Communities," Robert and Jean Holtz Center Thematic Cluster Grant
Thematic cluster leader
- 2016 **STS Summer School, UW–Madison**
Co-organizer and faculty member

2014–2015 **Graduate Committee, Department of the History of Science, UW–Madison**
Member

Professional service

Grant Reviewer for Institut National du Cancer (INCa), Fundação para a Ciência e a Tecnologia (FTC)

Manuscript Reviewer for *Advances in Medical Sociology*; *Biosocieties*; *Brain, Behavior and Evolution*; *British Journal of Sociology*; *Journal of Cultural Economy*; *East Asian Science and Technology Studies*; *Frontiers in Public Health*; *Journal of the History of Biology*; *Isis*; *Medical Anthropology Quarterly*; *New Genetics and Society*; *Perspectives on Science*; *Publications*; *Science as Culture*; *Science, Technology and Human Values*; *Social Science and Medicine*; *Social Studies of Science*; *Studies in History and Philosophy of Science Part C*; *Theory, Culture & Society*; *Tecnoscienza*; *TRACE: Finnish Journal for Human-Animal Studies*; Cambridge University Press; Elsevier; Stanford University Press; University of Chicago Press

2019 **Unabridged: A Library Research Master Class for Graduate Students**
Keynote speaker, Harvard University, Cambridge MA, January 23.

2018 **MidweSTS Graduate Student Conference**
Local organizer

2016 **MidweSTS Graduate Student Conference**
Co-organizer

2014 **Situating Science summer school**, Kingston ON.
Guest faculty, June 22–26.

Public service

2018 “Model behavior.” Invited lecture for the Bascom Hill Society, UW–Madison, February 20.

2015 “The rationale for basic research.” Panel moderator, WARF 90th Anniversary Celebration, UW–Madison, October 14.
